

## Position available

### VP, Scientific Operations – Celentyx Ltd

Celentyx Ltd is a successful pharmaceutical research and development company (based Birmingham UK), undertaking high-level immune-focused *in vitro* research using human cells and tissues.

We are currently looking for a talented and highly-motivated individual to join Celentyx and provide leadership of our *in vitro* analytical team, which runs a wide range of cell biology and analytical assays investigating the impact of novel immune modulating drugs using a wide range of techniques (see <http://www.celentyx.com/by-assay.html>). The successful applicant will lead our dynamic *in vitro* analytical team delivering a variety of high-level and often bespoke research projects to strict timescales.

Prospective candidates should hold a PhD in immunology or another relevant subject and preferably have relevant team leading experience in the pharmaceutical sector. In addition, excellent organisational skills and the ability to work as part of a senior management team are required.

A competitive salary commensurate with qualifications and experience along with an attractive bonus and share option scheme will be offered.

Interested parties should email a current CV and cover letter to Dr Catherine Brady ([catherine.brady@celentyx.com](mailto:catherine.brady@celentyx.com)), Chief Operating Officer, Celentyx Ltd. Dr Brady is also available for informal discussion concerning the position.
